

MY EDUCATION PLAN

By: Morgan French

Grade: 11 Age: 16

Saunders Secondary School, London, ON

Education is important to me because you can't go anywhere in life without it. I am almost done high school now and I am going to be attending Fanshawe College in London, Ontario which is not too far from where I live, Chippewa of the Thames First Nation.

The jobs that I am considering are policing, crime investigator, nurse and media (acting). I feel that I would be a good police officer because it would be fun and at the same time be making the reserve a safer place. It would also be interesting to be a crime investigator because you can solve crimes and know the cause before anyone else and also be nosy at the same time. Being a nurse would be a benefiting job because you care for people, but however I don't like seeing needles so that might not be my best career choice. I have a family member who is a model/actor, he is on a TV show on A.P.T.N called "Cashing In" and I know my family is proud of him, and I want the same for me so that job could be a possibility. Also my main goal

for right now is to finish high school on time which I think I am on the right track because I'm in grade eleven and have all of my credits that are needed for right now, by the end of my grade twelve year I want to have figured out what I want kind of career I want and how I am going to achieve it.

I think that the jobs that I have in mind would all be very interesting in beneficial for me.
