## **ADVANCED ABORIGINAL COUNSELLING TECHNIQUES**

### **Course Description:**

This course will reinforce counselling skills, and techniques learned from the Counselling Practicum and Theory Part I and II courses offered through the Native Counsellor Training Program. Students will discuss various assessment tools that are offered in the field. Topics will include conflict resolutions, non-violent crisis intervention techniques, crisis response teams and various assessment tools. Students will make reference to the medicine wheel teachings and how it relates to counselling. Ultimately this course will provide students with the education and skills to work effectively in Aboriginal communities.

### **Learning Outcomes**

Upon completion of the course the students will be able to:

1. demonstrate their ability to effectively counsel clients in a role-playing forum.
2. develop appropriate conflict resolution strategies for their clients.
3. discuss various non-violent crisis intervention techniques with pros and cons for each.
4. explain the pros and cons of various assessment tools offered in the field.

### **Required Textbook:**

James, Richard K., and Gilliland, Burl E., (2001). Crisis intervention strategies. (4<sup>th</sup> edition) Nelson Thomson Learning

ISBN 0-534-36641-4

### **Evaluation:**

Participation/in class assignments - 20%

Chapter presentation - 30%

Research paper – case study based on contemporary issue - 50%

- history
- present status
- suggestions for intervention

**NOTE:** Student participation is based on students' attendance and participation in class during group activities and discussions. 100% attendance is compulsory for successful completion of this course.

### **Other/Additional Information:**

100% completion of all assignments is expected. A zero will be assigned if not handed in on the due date. ANY ABSENCE requires discussion and approval of instructor and coordinator.

The instructor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Students with special needs, (eg. Physical limitations, visual impairments, hearing impairments, and learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor.

## **MENTAL HEALTH FIRST AID FOR ADULTS WHO INTERACT WITH YOUTH**

### **Course Description:**

This 14 hour course will examine a variety of issues adults who interact with youth may encounter with regards to mental health and disorders, mood disorders, anxiety disorders and psychotic disorders. Some of the discussions will include substance use, deliberate self-injury, signs and symptoms, risk factors and stigma and discrimination. Students will learn crisis first aid skills for situations such as substance overdose, suicidal behavior, panic attacks and psychotic episodes.

### **Learning Outcomes:**

Upon Completion of the course students will be able to:

1. recognize and understand the symptoms of mental health problems
2. provide help to prevent the mental health problem from becoming more serious
3. promote the recovery of good mental health
4. increase confidence and productivity and decrease social distancing

### **Required Textbook/Materials:**

Required materials will be provided by instructor

### **Evaluation:**

100% class participation for the full duration of the program

Each person who successfully completes will earn: ***MENTAL HEALTH FIRST AID CERTIFICATE***

**NOTE:** Student participation is based on students' attendance and participation in class during group activities and discussions. 100% attendance is compulsory for successful completion of this course.

### **Other/Additional Information:**

100% completion of all assignments is expected. A zero will be assigned if not handed in on the due date. ANY ABSENCE requires discussion and approval of instructor and coordinator.

The instructor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources.

Students with special needs, (eg. Physical limitations, visual impairments, hearing impairments, and learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor

## **TRADITIONAL HEALING AND WELLNESS**

### **Course Description:**

This program emphasizes traditional healing methods by providing students with the unique opportunity to develop self-awareness and the mental and spiritual healing so often needed by caregivers. Students will share experiences, acknowledging the effects of trauma of individuals, their families and communities. Local Elders will be invited to share traditional methods towards reclaiming what was originally given to First Nations to heal mentally, physically, emotionally and spiritually.

### **Learning outcomes:**

Upon completion of the course students will be able to:

1. able to support clients in developing a wellness model
2. support clients in doing self-assessments and identifying traditional resources to assist them in their healing
3. contribute to a sense of identity, unity and belonging
4. have a understanding of traditional ceremonies, culture, language and how they can have a positive impact on wellness.

### **Required Textbook/Materials:**

#### **Evaluation:**

Participation in class - 20%

Reflection Assignment - 20%

Self-Assessment – SWOT - 30%

Action Plan for healing - 30%

**NOTE:** Student participation is based on students' attendance and participation in class during group activities and discussions. 100% attendance is compulsory for successful completion of this course.

### **Other/Additional Information:**

100% completion of all assignments is expected. A zero will be assigned if not handed in on the due date. ANY ABSENCE requires discussion and approval of instructor and coordinator.

The instructor reserves the right to change the information contained in this course outline depending on the needs of the learner and the availability of resources. Students with special needs, (eg. Physical limitations, visual impairments, hearing impairments, and learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor.

## **APPLIED SUICIDE INTERVENTION SKILLS TRAINING (ASIST)**

### **Course Description:**

This 15 hour interactive program will provide students with the knowledge on how to be sensitive to their own attitudes towards suicide while creating an understanding of the impact that attitudes can have on the intervention process. It will provide an overview of the intervention needs of a person at risk and focus on providing students with the skills necessary to recognize risk and develop safe plans to reduce the risk of suicide. Participants will develop their skills through observation and supervised simulation experience in groups and be provided with the ability to share real experiences and feelings about suicide

### **Learning outcomes:**

Upon completion of the course students will be able to:

1. be open, honest and direct about suicide while exercising care in expressing their own values about suicide
2. respect a person at risks decision making rights and appreciate the importance of letting them talk about suicide
3. appreciate that some part of a person at risk wants to live and consider things that may threaten their safety
4. collaborate with a person at risk to develop a plan that fits their immediate safety needs and ensure that the plan is understood

### **Required Textbook/Materials:**

Suicide Intervention Handbook - supplied by instructor

### **Evaluation:**

100% class participation for full duration of the program. Each person who completes the 2 day training will receive: **ASIST –Certificate from Living Works**

**NOTE:** Student participation is based on students' attendance and participation in class during group activities and discussions. 100% attendance is compulsory for successful completion of this course.

### **Other/Additional Information:**

Students with special needs, (eg. Physical limitations, visual impairments, hearing impairments, and learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor.

## **PERSONALITY DIMENSIONS**

### **Course Description:**

This course is research based which shows that temperament can be categorized into 4 types and adequately described by identifiable values, traits and analysis of exhibited preferences and decisions under controlled conditions. The program will be presented in an informative interactive, self-discovery format that will enhance the basic values of self-esteem, dignity and self-worth. Students will learn what motivates behavior in people with different personalities or temperaments and will learn self-knowledge through a facilitated self-discovery model.

### **Learning outcomes:**

Upon completion of the course students will be able to:

1. foster and deepen their understanding of others
2. develop the ability to communicate with and understand individuals of all temperaments
3. learn how to work with persons of all personality types
4. negotiate more effectively and identify potential problems earlier

### **Required Textbook/Materials:**

Training materials provided by instructor

### **Evaluation:**

100% class participation for the duration of the program

**NOTE:** Student participation is based on students' attendance and participation in class during group activities and discussions. 100% attendance is compulsory for successful completion of this course.

### **Other/Additional Information:**

Students with special needs, (eg. Physical limitations, visual impairments, hearing impairments, and learning disabilities) are encouraged to discuss required accommodations confidentially with the instructor.
