

NCTP Calendar and Outline

There are eight courses in the NCTP program. There is also a placement of 200 hours. The placement can be completed in your current place of work with the addition of 'new' learning and competencies.

Each course takes about three months to complete. There are three semesters per year.

Each course has six modules. With each module, you are required to submit work for marking. There is also a Zoom requirement for classroom discussion. The class and Instructor will determine this.

Yearly:

Three courses – Semester One – September - November

Semester Two – December – March

Semester Three – April – June

To be eligible for the placement, you must have achieved an overall percentage of 75 and passed each course.

Year One: 3 Courses

Year Two: 3 Courses

Year Three: 2 Courses plus placement

Your marks and recommendations are then sent to the Ministry of Education for Certification.
